

2018 NW Mushroomers Association Mushroom Show Species List 10/21/18

Tentative total for show = 334 (including 14 not on tables, 8 lichens and 3 slime molds)
It does not include the count of several dozen species lumped in the list for several genera with the ".spp" abbreviation (=several unidentified but distinct species) of which there were about 2 dozen.

This is one of the largest number of species we have displayed at our annual show. This list based on the combined identification skills of: Caleb Brown, Jim Fackler, Jeremy Ferrera, Mark Johnson, Gary Laursen, Buck McAdoo, Dick Morrison, Erin Moore, Fred Rhoades, Christine Roberts, Jack Waytz, Terri Wilde, Eric Worden

Species seen at ID table, or during ID sort or later identified but not put out (14)

Agaricus oceanus (*A. arvensis* with more solid, robust stem)

Agaricus hondensis

Aspropaxillus giganteus (= *Clitocybe gigantea*)

Cortinarius paludosaniosus

Dendrocollybia racemosa

Laricifomes officinalis

Mycena pterigena

Macrocystidia cucumis

Coprinopsis lagopus

Oligoporus fragilis

Pholiota terrestris

Tricholoma imbricatum

Tricholoma inamoenum

Tricholoma sejunctum

Agarics (223)

Agaricus augustus

Agaricus buckmacadooi

Agaricus moelleri (= *A. deardorffensis*)

Amanita augusta (= *Amanita aspera*, *A. franchetii*)

Amanita constricta

Amanita gemmata

Amanita muscaria

Amanita pachycolea

Amanita pantherina

Amanita phalloides

Amanita porphyria

Amanita silvicola

Amanita sp.

Amanita vaginata

Ampulloclitocybe avellaneoalba

Ampulloclitocybe clavipes

Armillaria sinapina
Armillaria solidipes
Atheniella aurantiidisca
Baeospora myosura
Cantharellula umbonata
Chlorophyllum brunneum
Chlorophyllum olivieri
Chroogomphus tomentosus
Chrysomphalina chrysophylla
Clitocybe dilatata
Clitocybe nebularis
Clitocybe odora var. *pacifica*
Clitocybe phyllophila
Clitocybe sclerotoidea
Clitocybe subditopoda
Clitocybe trulliformis
Clitocybula atrialba
Clitopilus prunulus
Connopus acervatus
Coprinellus micaceus
Coprinopsis atramentaria
Coprinus comatus
Cortinarius caperatus (= *Rozites caperatus*)
Cortinarius cf. *balteatoalbus*
Cortinarius cf. *camphoratus*
Cortinarius cf. *cinnabarinus*
Cortinarius cf. *cotoneus*
Cortinarius cf. *delibutus*
Cortinarius cf. *fulmineus*
Cortinarius cf. *kauffmanianus*
Cortinarius cf. *testaceofolius*
Cortinarius cf. *vespertinus*
Cortinarius croceus
Cortinarius ominosus (= *C. semisanguineus*)
Cortinarius violaceus
Cortinarius sp.
Cortinarius sp.
Cortinarius sp. (subgenus *Leprocybe*)
Cortinarius sp. (subgenus *Sericeocybe*)
Cortinarius spp. (subgenus *Dermocybe*)
Cortinarius spp. (subgenus *Leprocybe*)
Cortinarius spp. (subgenus *Phlegmacium*, incl. subgenus *Bulbopodium*)
Cortinarius spp. (subgenus *Sericeocybe*)
Cortinarius spp. (subgenus *Telamonia*)
Crepidotus applanatus var. *applanatus*
Crepidotus mollis

Crepidotus sp.
Cystoderma amianthinum
Cystoderma fallax
Cystodermella granulosa
Entoloma lividoalbum f. inodoratum
Entoloma medianox
Entoloma rhodopolium
Entoloma rhodopolium "form 8700"
Entoloma sericatum
Entoloma sp.
Entoloma sp.
Flammulina velutipes
Galerina semilanceata
Galerina sp.
Gomphidius glutinosus
Gomphidius oregonensis
Gomphidius smithii
Gomphidius subroseus
Gymnopilus aeruginosus
Gymnopilus bellulus
Gymnopilus sapineus
Gymnopilus sp.
Gymnopilus ventricosus
Gymnopus confluens
Gymnopus peronatus
Hebeloma incarnatulum
Hebeloma sacchariolens
Hebeloma sp.
Hebeloma sp.
Hemipholiota populnea (=Pholiota destruens)
Hygrocybe singeri (=H. conica)
Hygrophoropsis aurantiaca
Hygrophoropsis rufa
Hygrophorus russula
Hygrophorus sp.
Hypholoma capnoides
Hypholoma disperum (=H. marginatum)
Hypholoma fasciculare
Hypholoma tuberosum
Hypsizygus tessellatus
Inocybe armeniaca
Inocybe assimilata
Inocybe castanea
Inocybe cinnamomea
Inocybe geophylla
Inocybe lilacina

Inocybe rimosa
Inocybe sp.
Inocybe sp.
Inocybe sp.
Laccaria amethysteo-occidentalis
Laccaria bicolor
Laccaria laccata
Lacrymaria velutina
Lactarius caespitosus
Lactarius deliciosus group
Lactarius fallax
Lactarius hepaticus
Lactarius kauffmanii
Lactarius luculentus var. laetus
Lactarius luculentus var. luculentus
Lactarius necator (=L. plumbeus) ?
Lactarius pallescens
Lactarius pseudomucidus
Lactarius rubrilacteus
Lactarius rufus
Lactarius rufus var. parvus
Lactarius scrobiculatus
Lactarius torminosus var. nordmanensis
Lactarius sp.
Lentinellus cochleatus (= L. cornucopoides)
Lepiota felina
Lepista nuda
Leptonia gracilipes
Leucoagaricus leucothites
Leucopaxillus gentianeus (=L. amarus)
Marasmiellus candidus
Marasmius oreades
Melanoleuca melaleuca
Melanoleuca sp.
Mycena epipterygia var. epipterygia
Mycena galericulata
Mycena haematopus
Mycena leptcephala
Mycena pura
Mycena purpureofusca
Mycena robusta
Mycena sp.
Mycena sp.
Mycena sp.
Myxomphalia maura
Paralepista flaccida (=Lepista inversa)

Paxillus involutus
Phaeolepiota aurea
Pholiota aurivella
Pholiota flavida
Pholiota sp.
Pholiota sp.
Pholiota spumosa
Pholiota squarrosa
Pleurocybella porrigens
Pleurotopsis longinqua
Pleurotus dryinus
Pleurotus populinus
Pleurotus pulmonarius
Pluteus cervinus
Psathyrella gracilis
Psathyrella longistriata
Psathyrella sp.
Psathyrella sp.
Pseudoclitocybe cyathiformis
Psilocybe azurescens
Psilocybe cyanescens
Psilocybe semilanceata
Rhodocollybia butyracea
Rhodocollybia butyracea f. *asema*
Rhodocollybia butyracea "var. *ochracea*" nom. prov.
Russula aeruginea
Russula brevipes var. *acrior*
Russula brevipes var. *brevipes*
Russula brunneola
Russula brunneoviolacea
Russula cascadenis
Russula cessans
Russula cremoricolor
Russula dissimulans
Russula eleaodes
Russula fragilis
Russula murrillii
Russula occidentalis
Russula placita
Russula queletii
Russula silvicola
Russula veteriosa
Russula xerampelina
Russula xerampelina var. *isabelliniceps*
Russula sp.
Sarcomyxa serotina (= *Panellus serotinus*)

Strobilurus occidentalis
Strobilurus trullisatus
Stropharia ambigua
Stropharia hornemannii
Tapinella atrotomentosa
Tricholoma aurantium
Tricholoma equestre
Tricholoma focale
Tricholoma moseri
Tricholoma murrillianum (= *T. magnivelare*)
Tricholoma muricatum
Tricholoma mutabile
Tricholoma nigrum
Tricholoma pardinum
Tricholoma pessundatum
Tricholoma portentosum
Tricholoma terreum
Tricholoma vaccinum
Tricholoma sp.
Tricholomopsis decora
Tricholomopsis rutilans
Xeromphalina campanelloides
Xeromphalina cornui

Boletes (15)

Boletus coniferarum
Boletus edulis var. *grand edulis*
Boletus fibrillosus
Boletus mirabilis
Boletus rainisii
Boletus smithii
Chalciporus piperatus
Porphyrellus porphyrosporus
Suillus caerulescens
Suillus lakei
Suillus luteus
Xerocomellus chrysenteron
Xerocomellus zelleri
Xerocomus subtomentosus
Xerocomus sp.

Chanterelles (7)

Cantharellus formosus
Cantharellus subalbidus

Craterellus tubaeformis
Gomphus clavatus
Turbinellus floccosus
Turbinellus kaufmanii
Polyozellus multiplex

Spine fungi (8)

Hericium abietis
Hydnellum sp.
Hydnellum sp.
Hydnellum sp.
Hydnellum sp.
Hydnum umbilicatum
Phellodon atratus
Sarcodon imbricatus

Corals (9)

Clavaria falcata
Clavaria fragilis (= *C. vermicularis*)
Clavariadelphus truncatus
Clavulina cinerea
Clavulina coralloides (= *C. cristata*)
Ramaria formosa
Ramaria stricta var. *stricta*
Ramaria spp.
Sparassis crispa

Polypores & crusts (24)

Albatrellus ellisii
Bondarzewia mesenterica
Coltricia perennis
Fomes fomentarius
Fomitopsis cajanderi
Fomitopsis pinicola
Ganoderma applanatum
Ganoderma oregonense
Gloiodon occidentalis
Heterobasidion annosum
Laetiporus conifericola
Lenzites betulina
Oligoporus caesius
Phaeolus schweinitzii
Polyporus badius

Polyporus melanopus
Pycnoporus cinnabarinus
Trametes gibbosa
Trametes versicolor
Tyromyces chioneus
Polypore sp.
Phlebia radiata
Phlebia tremellosa
misc. Crust

Puffballs and allies (10)

Calvatia booniana
Lycoperdon nigrescens
Lycoperdon pyriforme
Lycoperdon sp.
Pisotolithus arhizus
Vascellum lloydianum
Geastrum saccatum
Crucibulum laeve
Cyathus striatus
Nidula candida

Jelly Fungi (3)

Calocera viscosa
Pseudohydnum gelatinosum
Tremella mesenterica

Ascomycota (10)

Aleuria aurantia
Bisporella citrina
Chlorociboria aeruginosa
Gyromitra infula
Gyromitra sp.
Helvella vespertina
Peziza repanda
Hypomyces lactifluorum
Rhytisma punctatum
Xylaria hypoxylon

Slime molds (3)

Fuligo septica
Unknown Slime mold slime (plasmodium) sp.

Unknown Slime mold slime (plasmodium) sp.

Lichens (8)

Alectoria sarmentosa

Cladonia chlorophaea

Dolichousnea longissima (= *Usnea longissima*)

Letharia vulpina

Sphaerophorus tuckermanii

Lobaria oregana

Peltigera membranacea

Platismatia herrei
