

## **Stimpson Family Nature Preserve - Fungi & Slime molds observed since 1991**

Originally entitled, "Macrofungi - Beaver Creek Conservation Area" This is from an on-going phenological inventory conducted by members of Northwest Mushroomers. Sampling has been throughout the Stimpson with most at the west most area of the property, to the north and south of the beaver pond. Some sampling from the Sudden Valley entrance trail and further back along the main loop trail. Names in () are some of the older names once used for a species. Names at end in "" are commonly accepted common names. Species names in quotes are broad species concepts. "sp." = one unknown species. "spp." = several unknown species. Species numbers and names are as of the beginning of 2019.

**Note:** Collecting mushrooms or other biota in the Stimpson preserve is not allowed for other than scientific purposes. For the purposes of the MycoFlora project, record the presence of observations on iNaturalist. Only collect those things that need further microscopic study or that will be added to the project under the direction of the project leader. Contact Fred Rhoades for further information: see Contact page at Northwest Mushroomers Association website.

Fungi (420 species)

Agaricus "silvicola" "Woodland Agaricus"

Agaricus augustus "The Prince"

Agaricus deardorfensis (A. moelleri, A. praeclarisquamosus) "Western Flattop Agaricus"

Agaricus hondensis

Agrocybe erebia

Aleuria aurantia "Orange Fairy Cup"

Aleurodiscus sp.

Amanita (Amanitopsis) constricta "Constricted Grisette"

Amanita (Amanitopsis) pachycolea "Western Grisette"

Amanita (Amanitopsis) vaginata "Grisette"

Amanita augusta (A. franchetii) "Yellow-veiled Amanita"

Amanita gemmata

Amanita porphyria "Purple-brown Amanita"

Amanita silvicola "Woodland Amanita"

Amanita smithiana "Smith's Amanita"

Amanita sp. (blond a la J Waytz)

Armillaria sinapina "Wetland Hardwood Honey Mushroom"

Armillaria solidipes "Conifer Honey Mushroom" (formerly A. ostoyae)

Arrhenia (Clitocybe) epichysium

Asterophora lycoperdoides

Atheniella adonis (Mycena adonis, M. amabilissima) "Pink Mycena"

Atheniella aurantiidisca (Mycena aurantiidisca) "Orange Mycena"

Auriscalpium vulgare "Ear-pick fungus"

Baeospora myosura (originally called B. myriadophylla)

Berkandera adusta

Bisporella (Calycella) citrina

Boletus fibrillosus (dk brwn cap, red-brown retic. st)

Boletus mirabilis "Admirable Bolete"  
Calocera cornea "Unforked Tuning Fork Jelly"  
Calocera viscosa "Yellow Tuning Fork Jelly"  
Caloscypha fulgens "Blue-staining cup", "Snow bank orange peel"  
Cantharellus formosus "NW Golden Chanterelle"  
Chlorociboria aeruginosa  
Chlorophyllum olivieri ? (originally IDd as Lepiota rachodes var. rachodes - brown-gray woods variety)  
Chroogomphus tomentosus "Wooly False Chanterelle", "Wooly Pine Spike"  
Clavaria fragilis (C. vermicularis) "Worm Coral"  
Clavulina cinerea "Gray Coral"  
Clavulina coralloides (C. cristata) "Pyxie Coral", "Crested Coral"  
Clavulinopsis laeticolor "Golden Fairy Club"  
Clitocybe (Clitocybula) atrialba  
Clitocybe (Hygrophoropsis) aurantiaca "(True) False Chanterelle"  
Clitocybe clavipes "Club-foot Clitocybe"  
Clitocybe coniferophila or C. candicans  
Clitocybe connata (= C. dilatata)  
Clitocybe cyathiformis (or Omphaliaster borealis)  
Clitocybe deceptiva (=C. suaveolens) "Anise Mushroom"  
Clitocybe epichysia  
Clitocybe flaccida  
Clitocybe nebularis "Cloudy Clitocybe"  
Clitocybe phyllophila  
Clitocybe robusta or C. candida  
Clitocybe salmonilamella  
Clitocybe variabilis?  
Clitocybe vibecina? (small, brownish gray, no odor: also might be Hydropus marginellus ?)  
Clitopilus prunulus (= C. orcellus) "Sweetbread Mushroom"  
Collybia sp. (brown cap, brown stipe)  
Collybia sp. (butyracea group)  
Collybia sp. (small, white, disc a brown spot)  
Collybia spp.  
Collybia tuberosa  
Coltricia perennis  
Connopus (Collybia) acervatus "Clustered Collybia"  
Conocybe filaris  
Coprinospora (Coprinus) atramentaria "Inky Cap"  
Coprinellus (Coprinus) disseminatus  
Coprinellus (Coprinus) micaceus "Mica Cap"  
Coprinellus (Coprinus) silvaticus  
Coprinospora (Coprinus) lagopides  
Coprinus comatus "Shaggy Mane"  
Cordyceps militaris  
Cortinarius "glaucoopus"  
Cortinarius alboviolaceus

Cortinarius anomalus  
Cortinarius bicolor  
Cortinarius cacao-color (group ss Philips non Moser)  
Cortinarius camphoratus  
Cortinarius fasciatus  
Cortinarius glandicolor  
Cortinarius lucorum  
Cortinarius phoeniceus var. occidentalis  
Cortinarius purpureus  
Cortinarius rigidus  
Cortinarius sanguineus  
Cortinarius sp. (a thin-stiped Telamonia, pale violet at apex)  
Cortinarius spp.  
Cortinarius subfoetidus  
Cortinarius traganus  
Cortinarius varius  
Cortinarius vibratilis  
Crepidotus applanatus  
Crepidotus epibryus (C. herbarum)  
Crepidotus mollis  
Crepidotus sp.  
Crucibulum laeve "Common Bird's Nest Fungus"  
Cystolepiota (Lepiota) seminuda  
Dacrymyces chrysospermus (D. palmatus) "Witches Butter"  
Daedaleopsis confragosa "Maze Polypore"  
Dentinum umbilicatum  
Dermocybe sp. (olive brown cap)  
Entoloma "rhodopolium"  
Entoloma madidum  
Entoloma sp.  
Flammulina velutipes "Velvet-stemmed Collybia"  
Fomes fomentarius  
Fomes (Fomitopsis) cajanderi  
Fomes (Fomitopsis) pinicola "Red-margined, Cubical Rot of Conifers" (Note: These records up to 2019 did not distinguish between the Red belted conk (now known as Fomitopsis macounii) and the not-so red-belted conk (Fomitopsis ochracea).  
Fomes (Heterobasidion) annosum  
Fomes (Phellinus) laevigatus  
Galerina atkinsoniana  
Galerina semilanceata  
Galerina sp. (conical cap, on wood)  
Galerina sp. (silvery sheen on stipe)  
Galerina sp. (thick stipe)  
Galerina sp. (thin stipe)  
Galerina sp. (tiny, conical)  
Ganoderma (Elfvigia) applanatum "Artist's Conch"

Ganoderma oregonense "Oregon Varnished Conch"  
Geastrum saccatum "Earth Star"  
Gomphidius glutinosus  
Gomphidius oregonensis "Insidious Gomphidius"  
Gomphidius smithii  
Gomphidius subroseus "Okra Mushroom", "Not-quite-rosy Gomphidius"  
Gymnopilus penetrans  
Gymnopilus punctifolius (greenish brown, bald cap, no veil)  
Gymnopus (Collybia) confluens "Tufted Collybia"  
Gymnopus (Collybia) dryophilus  
Gymnopus (Collybia) fuscopurpureus (but without strigose hairs on stipe = C. cylindrospora?)  
Gymnopus (Collybia) peronatus "Acrid Tufted Collybia"  
Gyromitra ancillis (Discina perlata) "Pig's ear"  
Hebeloma "mesophaeum"  
Hebeloma crustuliniforme "Poison Pie"  
Hebeloma praeolidum  
Helvella atra  
Helvella crispa  
Helvella elastica  
Helvella maculata "Fluted brown elvin saddle"  
Helvella solitaria  
Helvella vespertina (H. lacunosa) "Gray Elfin Saddle"  
Hemimycena (Mycena) delectabilis  
Hemimycena (Mycena) delicatella  
Hemimycena tortuosa  
Heterotextus (Guepiniopsis) alpinus "Alpine Jelly"  
Hirscioporus purpuratus  
Hygrocybe (Camarophyllus) virginea  
Hygrocybe (Hygrophorus) conica "Witch's Cap"  
Hygrocybe (Hygrophorus) flavescens "Golden Waxy Cap"  
Hygrocybe (Hygrophorus) laeta  
Hygrocybe (Hygrophorus) miniata "Scarlet Waxy Cap"  
Hygrocybe (Hygrophorus) minutula "Tiny Scarlet Waxy Cap"  
Hygrocybe (Hygrophorus) olivaceoniger ?  
Hygrocybe (Hygrophorus) parvula  
Hygrophorus bakerensis  
Hymenoscyphus virgultorum ?  
Hypholoma capnoides "Smoky-gilled Woodlover"  
Hypholoma dispersum  
Hypholoma elongatum  
Hypholoma fasciculare "Clustered Woodlover", "Sulfur Tuft"  
Hypomyces chrysospermum "Mushroom Rot"  
Hypoxyton fuscum  
Hypoxyton multiforme "Pin Cushion Carbon Fungus"  
Inocybe agglutinata

Inocybe calamistrata "Green-footed, Fishy Inocybe"  
Inocybe geophylla "Earth-loving Inocybe"  
Inocybe grammata  
Inocybe grammata group (I. albodisca)  
Inocybe hirsuta var. maxima  
Inocybe lanatodisca  
Inocybe lanuginosa  
Inocybe lilacina "Lilac Inocybe"  
Inocybe mixtilis group  
Inocybe napipes "Turnip-bulbed Inocybe"  
Inocybe olympiana  
Inocybe praecox  
Inocybe pudica "Blushing Inocybe"  
Inocybe rimosa "Spermatoc Inocybe" (formely I. fastigiata)  
Inocybe sindonia?  
Inocybe sororia "Green Corn Inocybe"  
Inocybe sp.  
Inocybe sp.  
Inocybe sp. tan, darker disk, smooth spores, fishy odor  
Inocybe suaveolens  
Inocybe xanthomelas  
Jahnporus (Albatrellus) hirtus "Iodine Polypore"  
Laccaria amethysteo-occidentalis "Western Amethyst Laccaria"  
Laccaria bicolor  
Laccaria laccata "The Deceiver"  
Laccaria sp. (small, pinkish red)  
Lachnellula agassizii  
Lactarius californiensis  
Lactarius deliciosus group "Delicious Milky Cap"  
Lactarius fallax  
Lactarius fragilis "Candy Cap"  
Lactarius kaufmanii  
Lactarius luculentus var. laetus (taste slowly bitter)  
Lactarius obscuratus  
Lactarius occidentalis (small, white milk, mild, under alder)  
Lactarius pallescens  
Lactarius pseudomucidus  
Lactarius rubrilacteus "Red-milked Delicious Milk Mushroom"  
Lactarius rufus var. parvus "Peppery Milk Mushroom"  
Lactarius scrobiculatus var. canadensis  
Lactarius sp. (small, mild, orange, viscid)  
Lactarius sp. (small, mildly peppery, orange)  
Laetiporus gilbertsonii "Hardwood sulfur shelf"  
Leccinum scabrum  
Lentaria byssiseda "Threaded Log Coral"  
Leotia lubrica

Lepiota acutosquamosa type  
Lepiota castaneidisca (like *L. cristata* but red brown scales, no stains)  
Lepiota clypeolaria "Shield Lepiota"  
Lepiota cristata "Brown-eyed Parasol" (might have been *L. castaneidisca*)  
Lepiota flammeatincta "Flaming Parasol"  
Lepiota magnispora (= *L. clypeolaria*)  
Lepiota sp. (small, white, staining)  
Lepista (*Clitocybe*) nuda "Blewet"  
Leptonia cyanea  
Leptonia formosa  
Leptonia fuligneomarginata? (redbrown, depressed cap, brown stipe)  
Leptonia fulva or *L. xanthochroa*  
Leptonia gracilipes  
Leptonia parva "Blue Leptonia"  
Leptonia sp. (blue gray stem, umber cap)  
Leptonia sp. (brown stem, umber, scaly cap = *L. umdulatella*?)  
Leptonia sp. (mycenoid, pale brown cap)  
Leptonia squamulosa  
Leucoagaricus (*Lepiota*) rubrotinctus "Red-eyed Parasol"  
Leucopaxillus albissimus var. lentus f. olympianus "White Leucopaxillus"  
Leucopaxillus gentianeus "Bitter Leucopax" (= *L. amarus*)  
Lycoperdon foetidum  
Lycoperdon nettyana  
Lycoperdon perlatum "Gemmed Puffball"  
Lycoperdon pyriforme "Pear-shaped Puffball"  
Lyophyllum decastes  
Lyophyllum semitale  
Marasmiellus candidus (*Marasmius magnisporus*)  
Marasmiellus pluvius  
Marasmiellus sp. (like *M. pluvius* except stipe differnt)  
Marasmius androsaceus "Horse-hair Marasmius"  
Marasmius sp. (tiny, white)  
Melanoleuca melaleuca  
Mycena acicula  
Mycena amicta "Blue Mycena"  
Mycena atroalboides  
Mycena aurantiomarginata  
Mycena avenacea  
Mycena citrinomarginata  
Mycena epipterygia  
Mycena filopes  
Mycena fragillus? = *M. fragillima*? (2nd record fits the latter so likely this)  
Mycena galopus (*M. fusco-ocula*) ? "Dark-eyed Mycena"  
Mycena galericulata "Bonnet Mycena"  
Mycena griseiconica  
Mycena haematopus "Bloody Mycena"

*Mycena laevigata*  
*Mycena leptcephala* "Soil Bleach *Mycena*"  
*Mycena mauretanic* ? (very tiny, white, on bark)  
*Mycena oregonensis*  
*Mycena pura*  
*Mycena purpureofusca*  
*Mycena robusta* (*M. plumbea* f. *robusta*) "Late, large gray *Mycena*"  
*Mycena sanginolenta*  
*Mycena* sp.  
*Mycena* sp. (brown-eyed)  
*Mycena* sp. (conical, red-brown, translucent spikes on cap)  
*Mycena* sp. (odor of kelp)  
*Mycena* sp. (on conifer wood, sour chlorine odor, caps hygrophanous to gray)  
*Mycena* sp. (on hemlock twig, pale gray at margins, brown disc, white stipe, no odor, caps 1 cm wide at most)  
*Mycena* sp. (small, conical, brown, odorless)  
*Mycena* sp. (White, farinaceous odor, no spore color obtainable)  
*Mycena stipata* (= *M. alcalina*) "Wood Bleach *Mycena*"  
*Mycena strobilinoides*  
*Naucoria alnetorum* group  
*Naucoria escharoides* group  
*Nectria cinnabarina*  
*Nectria* sp. on birch (probably *N. cinnabarina*)  
*Neourmula pouchetii*  
*Nidula candida* "Common Bird's Nest Fungus"  
*Nolanea bicoloripes*  
*Nolanea cetrata* f. *cetrata*  
*Nolanea hirtipes*  
*Nolanea holoconiota*  
*Nolanea papillata*  
*Nolanea* sp.  
*Nolanea stricta* (convex, gry-brn, no odor) ?  
*Oligoporus* (*Tyromyces*) *caesius* "Blue Cheese Polypore"  
*Omphalina* (*Chrysomphalina*) *aurantiaca*  
*Omphalina* (*Lichenomphalia*) *umbellifera* "Mushroom lichen"  
*Omphalina* sp.  
*Otidea leporina*  
*Otidea onotica*  
*Panaeolus leucophanes*  
*Panellus serotinus* "Late Oyster Mushroom"  
*Panellus stypticus* "Alum Oyster"  
*Parasola plicatilis* (*Coprinus plicatilis*)  
*Paxillus* (*Tapinella*) *atrotomentosus*  
*Paxillus involutus* "Common *Paxillus*"  
*Paxillus panuoides*  
*Peziza* cf. *arvernensis* (giant flattened scabs)

Peziza cf. michelii (small brown cup)  
Peziza sp.  
Peziza sp. (repanda?) (on rotten wood)  
Phaeolus (Polyporus) schweinitzii "Root & Butt Rot of Conifers"  
Phellinus laevigatus  
Phellodon atratus "Blue-Black Phellodon"  
Phellodon melaleucus  
Phlebia (Merulius) tremellosa  
Phlebia tremellosus  
Pholiota (Kuehneromyces) mutabilis  
Pholiota alnicola  
Pholiota astragalina  
Pholiota aurivella group  
Pholiota flammans "Yellow Pholiota"  
Pholiota flava  
Pholiota flavida ?  
Pholiota limonella  
Pholiota squamosa  
Pholiota squarrosoides  
Phylloporus rhodoxanthus "Gilled Bolete"  
Pleurotus (Pleurocybella) porrigens "Angel's Wings"  
Pleurotus dryadeus  
Pleurotus elongatipes  
Pleurotus pulmonarius "Oyster Mushroom" (formerly P. ostreatus see note 35)  
Pluteus cervinus "Deer Mushroom"  
Pluteus lutescens "Yellow-stemmed Pluteus"  
Pluteus pellitus "White Deer Mushroom"  
Pluteus pouzarianus (scattered clamps on pileal hyphae )  
Pluteus sp. (a variant of P. lutescens)  
Polyporus badius ?  
Porphyrellus porphyrosporus (Tylopilus pseudoscaber)  
Psathyrella candolleana  
Psathyrella gracilis  
Psathyrella hydrophila "Clustered Psathyrella"  
Psathyrella longistriata  
Psathyrella sp. (dull brown caps, striate margin)  
Psathyrella sp. (large, big colony on conifer log)  
Psathyrella sp. (small, big colony on conifer log)  
Psathyrella tsugae  
Pseudociboria sp.  
Pseudohiatula sp. ? (non-cone-loving Strobilurus)  
Pseudohydnum gelatinosum  
Pseudoplectania melaena  
Pseudoplectaina nigrella ?  
Pycnoporellus (Polyporus) alboluteus  
Ramaria araisospora

Ramaria cystidiophora  
Ramaria flavigelatinosa var. megalospora  
Ramaria rubella  
Ramaria sp.  
Ramaria stricta "Narrow-branched Wood Ramaria"  
Ramariopsis kunzei "White Coral Mushroom"  
Ramicola sumptuosa  
Rhodocollybia (Collybia) maculata  
Rhodocollybia butyracea (Collybia butyracea) group  
Rhytisma punctata "Maple Tarspot Fungus"  
Russula "alutacea"  
Russula abietina  
Russula aeruginea "Green Russula"  
Russula bicolor  
Russula brevipes "Short-stemmed Russula"  
Russula brevipes var. acrior "Short-stemmed Russula With Green"  
Russula cascadenis  
Russula cremoricolor  
Russula densifolia  
Russula fragilis  
Russula gracillima  
Russula integra  
Russula mustelina  
Russula nigrescens  
Russula nigricans "Blackening Russula"  
Russula occidentalis  
Russula olivacea "Pink-stemmed, Green Russula"  
Russula placita  
Russula puellaris  
Russula sp. (pectinate)  
Russula sp. (gray-brown, latently acrid)  
Russula xerampelina "Woodland Russula"  
Schizopara paradoxa  
Schizophyllum commune  
Sclerotinia tuberosa  
Scutellinia scutellata "Eyelash Cup"  
Sparassis crispa "Cauliflower fungus"  
Stereum (Chondrostereum) purpureum "Purple Stereum"  
Stereum complicatum  
Stereum gausapatum "Bleeding Stereum"  
Stereum hirsutum "False Turkey Tail", "Hairy Stereum"  
Stereum ostrea  
Stereum sanguinolentum  
Strobilurus (Collybia) albopilatus  
Strobilurus trullisatus "Cone Lover"  
Stropharia ambigua "Questionable Stropharia"

Suillus caerulescens "Blue-footed Suillus"  
Suillus lakei "Lake's Bolete"  
Suillus ponderosus "Large, Blue-footed Suillus"  
Suillus punctatipes  
Tapesia fusca  
Tarzettia cupularis  
Thelephora griseozonata? (gray zone at apex, no odor)  
Thelephora palmata (this has been at the site for as long as I can remember - but just noted  
10/1/04 its first occurrence)  
Thelephora terrestris  
Trametes (Polyporus) hirsuta "Hairy Turkey Tail"  
Trametes (Polyporus) versicolor "Turkey Tails"  
Tremella encephala  
Tremella mesenterica (=T. lutescens) "Mesentery Jelly"  
Trichaptum (= Hirschioporus) abietinus  
Tricholoma fulvum  
Tricholoma imbricatum  
Tricholoma magnevilare "American matsutake"  
Tricholoma saponaceum  
Tricholoma virgatum  
Tricholomopsis decora "Decorated Mop"  
Tricholomopsis rutilans "Plums & Custard"  
Tubifera ferruginosa  
Xerocomellus atropurpureus (formerly some of what was called X. zelleri, are this)  
Xerocomellus diffractus (X. chrysenteron, Boletus chrysenteron) "Red-cracked Bolete"  
Xerocomellus zelleri (Boletus zelleri) "Zeller's Bolete"  
Xeromphalina campanella "Golden Trumpets"  
Xeromphalina campanelloides  
Xeromphalina caudicinalis  
Xeromphalina fulvipes  
Xylaria hypoxylon "Candle-snuff Fungus"

Slime molds (6 species)

Ceratiomyxa fruticulosa (slime mold)  
Comatricha typoides  
Fuligo "intermedia"  
Hemitrichia calyculata  
Lycogala epidendrum  
Stemonitis fusca?
