

Northwest Mushroomers Association, 10/27/19

2019 Wild Mushroom Show list

Below are the names of species on display and a few brought into the IDers. Total = 326 which includes 222 gilled-, 82 nongilled-Basidiomycota, 11 Ascomycota, 9 lichens, and 2 slime molds. In the list, a "+" indicates one of 24 species that had not been previously collected (at least recently) for the show.

The identifiers this year were Jim & Jane Fackler, Jeremy Ferrera, Mark Johnson, Buck McAdoo, Harold Mead, Erin Moore, Dick Morrison, Fred Rhoades, Christine Roberts, Jack Waytz, Terri Wilde and Eric Worden.

This year many of the specimens were quite wet in addition to being somewhat old. This made identification somewhat tricky in places.

Gilled Basidiomycota

Agaricus arvensis
Agaricus augustus
Agaricus buckmacadonii
Agaricus campestris
Agaricus deardorffensis
Agaricus hondensis
Amanita constricta
Amanita gemmata
Amanita muscaria
Amanita pachycolea
Amanita phalloides
Amanita silvicola
Amanita vaginata
Ampulloclitocybe clavipes
Aspropaxillus giganteus (=Clitocybe gigantea)
Atheniella adonis
Atheniella aurantiidisca
Cantharellula umbonata
Chlorophyllum brunneum
Chlorophyllum olivieri
Chroogomphus tomentosus
Clitocybe fragrans
Clitocybe nebularis
Clitocybe odora var. pacifica
Clitocybe rivulosa =C. dealbata
Clitocybe sp. (cf. Clitocybe californiensis) +
Clitocybe subditopoda
Clitocybula atrialba
Connopus acervatus

Coprinellus micaceus
Coprinopsis lagopus
Coprinus comatus
Cortinarius "turmalis" +
Cortinarius acutus
Cortinarius balteatocumatilis +
Cortinarius betuletorum (=C. raphanoides) +
Cortinarius brunneus +
Cortinarius caperatus (=Rozites caperata)
Cortinarius causticus
Cortinarius communis +
Cortinarius distans
Cortinarius glaucopus
Cortinarius herpeticus
Cortinarius impennis
Cortinarius iodeoides +
Cortinarius latus
Cortinarius limonius
Cortinarius lucorum
Cortinarius malicorius (=C. croceifolius)
Cortinarius multiformis
Cortinarius mutabilis
Cortinarius ominosus (=C. semisanguineus)
Cortinarius paludosaniosus
Cortinarius rigidus
Cortinarius scaurus
Cortinarius sp. (cf. Cortinarius urbicus) +
Cortinarius traganus
Cortinarius uraceus +
Cortinarius vanduzerensis
Cortinarius variicolor
Cortinarius vibratilis
Cortinarius violaceus
Crepidotus epibryus
Cystoderma amianthinum
Cystoderma fallax
Cystoderma gruberianum +
Cystodermella granulosa
Entoloma bloxamii
Entoloma lividoalbum
Entoloma medianox
Entoloma rhodopolium
Flammula alnicola (=Pholiota alnicola)
Gomphidius glutinosus
Gomphidius oregonensis
Gomphidius smithii

Gomphidius subroseus
Gymnopilus penetrans
Gymnopilus sapineus
Gymnopilus ventricosus
Gymnopus confluens
Gymnopus dryophilus
Gymnopus fuscopurpureus
Hebeloma incarnatulum
Hebeloma sacchariolens
Hebeloma sp.
Hemimycena delectabilis
Hemipholiota populnea (=Pholiota destruens, Pholiota populnea)
Hygrocybe laeta
Hygrocybe miniata var. miniata
Hygrocybe psittacina
Hygrocybe singeri (=H. conica)
Hygrophoropsis aurantiaca
Hygrophorus bakerensis
Hygrophorus eburneus
Hygrophorus erubescens
Hypholoma capnoides
Hypholoma fasciculare
Inocybe calamistrata
Inocybe geophylla
Inocybe mixtilis
Inocybe pallidicremea (=Inocybe lilacina)
Inocybe pudica
Inocybe sororia
Inocybe sp.
Inocybe sp.
Laccaria amethysteo-occidentalis
Laccaria bicolor
Laccaria laccata
Lacrymaria velutina
Lactarius deliciosus group
Lactarius fallax
Lactarius hepaticus
Lactarius luculentus var. laetus
Lactarius luculentus var. luculentus
Lactarius olivaceoumbrinus
Lactarius pallescens
Lactarius pseudomucidus
Lactarius rubrilacteus
Lactarius scrobiculatus
Lactarius substriatus
Lactarius torminosus var. nordmanensis

Lepiota clypeolaria
Lepiota magnispora
Lepiota rubrotinctoides
Lepiota sp.
Lepiota sp.
Lepista nuda
Leptonia formosa var. formosa
Leucoagaricus americanus
Leucopaxillus albissimus
Leucopaxillus gentianeus (=L. amarus)
Lyophyllum decastes
Marasmiellus peronatus (=Gymnopus peronatus, Collybia peronata)
Marasmius oreades
Melanoleuca cognata
Melanoleuca melaleuca
Mycena clavicularis
Mycena corticalis
Mycena elegantula
Mycena epipterygia var. epipterygia
Mycena filopes
Mycena galericulata
Mycena haematopus
Mycena leptocephala
Mycena pura
Mycena purpureofusca
Mycena sp.
Mycena sp.
Mycena sp.
Mycena sp.
Nolanea cetrata
Nolanea occidentalis +
Nolanea strictior
Paralepista flaccida (=Lepista inversa)
Paxillus involutus
Phaeocollybia kaufmanii +
Phaeolepiota aurea
Pholiota flammans
Pholiota spumosa
Pholiota terrestris
Pholiota sp.
Pholiota sp.
Phylloporus arenicola
Pleurocybella porrigens
Pleurotus populinus
Pluteus exilis (most of what we have called Pluteus cervinus)
Psathyrella gracilis

Psathyrella sp.
Pseudoclitocybe cyathiformis
Rhodocollybia butyracea f. asema
Rhodocollybia butyracea var. ochracea nom. prov.
Rhodocollybia maculata var. scorzonerea +
Rhodocollybia oregonensis +
Russula adusta
Russula albonigra
Russula brevipes var. acrior
Russula brevipes var. brevipes
Russula cascadenis
Russula dissimulans
Russula eleaodes
Russula fragilis
Russula gracilis
Russula murrillii
Russula nigricans
Russula occidentalis
Russula rhodocephala (= Russula sanguinaria, R. rosacea)
Russula sardonis
Russula silvicola
Russula stuntzii
Russula versicolor
Russula veternosa
Russula xerampelina
Russula sp.
Russula sp.
Sarcomyxa serotina (=Panellus serotinus)
Strobilurus albopilatus
Strobilurus trullisatus
Stropharia ambigua
Stropharia coronilla +
Tapinella atrotomentosa
Tricholoma equestre
Tricholoma fracticum +
Tricholoma moseri
Tricholoma murrillianum (=Tricholoma magnivelare)
Tricholoma pardinum
Tricholoma pessundatum
Tricholoma portentosum
Tricholoma saponaceum
Tricholoma terreum
Tricholoma vaccinum
Tricholoma venenatum +
Tricholoma zelleri
Tricholomopsis decora

Tricholomopsis rutilans
Tricholoma sp.
Tricholoma sp.
Tricholoma sp.
Tricholoma sp.
Tubaria confragosa
Xeromphalina campanella
Xeromphalina campanelloides
Xeromphalina cornui

Non-gilled Basidiomycota

Albatrellus avellaneus
Aureoboletus mirabilis (=Boletus mirabilis)
Auriscalpium vulgare
Boletus edulis
Boletus fibrillosus
Calocera cornea
Calvatia booniana
Cantharellus formosus
Cantharellus subalbidus
Chalciporus piperatus
Clavariadelphus truncatus
Clavulina cinerea
Clavulina coralloides (=Clavulina cristata)
Clavulinopsis laeticolor
Coltricia perennis
Craterellus tubaeformis
Cryptoporus volvatus
Cyathus striatus
Dacrymyces chrysospermus
Dacrymyces stillatus
Fomes fomentarius
Fomitopsis cajanderi
Fomitopsis mounceae (= part of Fomitopsis pinicola)
Fomitopsis officinalis
Ganoderma applanatum
Ganoderma oregonense
Geastrum saccatum
Gloeophyllum sepiarium
Gloiodon occidentalis
Gomphus clavatus
Hericiium abietis
Hericiium americanum +
Heterobasidion annosum
Hydnellum aurantiacum

Hydnellum peckii
Hydnum repandum
Jahnoporus hirtus
Laetiporus conifericola
Leccinum scabrum
Lentaria byssiseda
Lycoperdon nigrescens
Lycoperdon perlatum
Lycoperdon pyriforme
Neoalbatrellus subcaeruleoporus +
Nidula sp.
Phaeolus schweinitzii
Phlebia radiata
Phlebia tremellosa
Piptoporus betulinus
Polyporus varius
Polyporus sp.
Polypore sp.
Pseudohydnum gelatinosum
Pycnoporus cinnabarinus
Ramaria araiospora var. rubella
Ramaria botrytis var. botrytis
Ramaria cystidiophora var. fabiolens +
Ramaria formosa
Ramaria leptiformosa
Ramaria rubella forma rubella
Ramaria sandaracina var. euosma
Ramaria stricta var. stricta
Ramaria spp.
Schizopora paradoxa +
Scleroderma citrinum
Sparassis crispa
Stereopsis humphreyi +
Stereum hirsutum
Suillus brevipes
Suillus caerulescens
Suillus granulatus
Suillus lakei
Suillus luteus
Suillus ponderosus
Suillus sp.
Trametes versicolor
Tremella mesenterica
Turbinellus bonarii
Turbinellus floccosus
Turbinellus kaufmanii

Xerocomellus diffractus (=Xerocomellus chrysenteron)
Xerocomellus zelleri

Ascomycota

Aleuria aurantia
Bisporella citrina
Chlorociboria aeruginosa
Helminthosporium clavariarum (on Clavulina) +
Helvella maculata
Helvella vespertina
Hypomyces chrysospermus (on boletes)
Hypomyces lactifluorum
Peziza domiciliana +
Spathularia flavida
Xylaria hypoxylon

Lichens

Lobaria linita
Lobaria pulmonaria
Parmelia sulcata
Peltigera canina
Peltigera neopolydactyla
Ramalina farinacea
Sphaerophorus tuckermanii
Usnea dasopoga (=Usnea filipendula)
Usnea quasirigida

Slime molds

Lycogala epidendrum
Slime mold slime (plasmodium)
